

## Your Implant Abutment Options

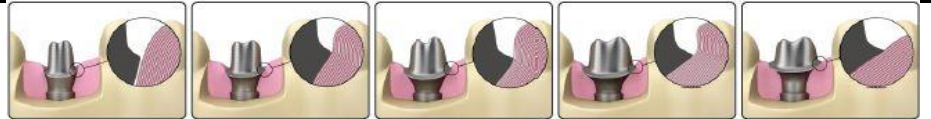

Date: \_\_\_\_\_

Doctor: \_\_\_\_\_

Patient: \_\_\_\_\_

Tooth #	Abutment Material	Margin Style	Subgingival Margin Depth				No tissue displacement	Support tissue	Contour tissue	Full anatomical	Anatomical support
			Buc	Lin	Dis	Mes					
	Ti, TiN, HyE, HyZ										

- Titanium
- Gold/Nitridey Titanium TiN
- Hybrid Abutment (with E-Max)
- Hybrid Abutment (with Zirconia)

**NOTES:**

Support Tissue	Contour Tissue	Full Anatomical
0.2 mm larger than sulcus	1.0 mm larger than sulcus	Best Emergence profile. A provisional, surgical incision, or plasty for placement may be required.

**Preliminary Workup Request**

- Wax-up required: please supply a wax-up of desired final restorations so we can plan the abutments accordingly.
- Surgical guide required.

\*Interproximal contact position relative to tissue height.
